

Dear Members,

Dear Members,

Here we go again and another month has passed by and we are saying goodbye to the winter and Spring is upon us with the hedgerows filling up with cowslips and wild daffodils and new shoots of the bluebells all starting to burst through and welcome the Springtime. Ideas for an Easter bonnet or rabbits or springtime flower arrangement to make!

I have been busy putting together a 24th scale holiday villa. I wanted to do something more modern and this is my first venture into this size, I quite like it. The house is coming along and will look good when finished. I am impressed with the design and the thousands of bits provided with the kit but there is just one problem that I can see with it - all the instructions are in Chinese accompanied with tiny photos. So as the song goes, I'll do it 'My Way.'

This month was 'miniatura' time. I hope that you managed to get along, I didn't make it as it was Mother's Day weekend and I was busy being pampered so maybe I will get there in the Autumn but if not I wouldn't mind going to York or somewhere different for a change.

Beverley

March meeting

This month we continued the theme of the toy box by making a push-along elephant. Bev supplied kits containing wheels, wire and wood, felt and stuffing and instructions. The little elephants were stitched together and then decorated before being glued to the wheel bases.

It was an evening where everyone was busy working away and promises to finish off and bring back next month to show off their achievements. Can't wait for the 'elephant parade'!

Next month April we will be making a Jack in the box. Kim will be our tutor.

Bring your usual work box.
