

Dear Members,

Sad to say that due to unforeseen circumstances, I didn't get to Miniatura this time. Members that did go had a good time seeing and buying bits and pieces for their future projects. I do like to visit when I can as I like to see 'what is new' and what other clubs and miniaturists are making.

Our October meeting had to be postponed at the very last minute as most of the members could not make the meet so we arranged to meet at my home on November 3rd instead.

Not only that but it also meant that we didn't meet Elaine and exchange the items that she had hoped to pass on to us. She came to the meeting but unfortunately there was no one there! Sorry I was not able to let her know. Hopefully, if she doesn't dispose of the before she comes back to the area in the spring then we can meet up with her.

Beverley

October Special Meeting.

Apologies: Ann, Beryl, Louisa.

This months meeting was a bit different from usual as rather than miss out on a club meet Bev suggested that we met at her house on a Sunday afternoon when most of us were available to meet up. Bev had the idea to offer her home as our sister clubs in Canada and New Zealand meet in members homes from time to time, so six of us met at Bev's.

Kim had put together some sewing basket kits for us all to make. We were pleased with the outcome and once put together we then set about making items to fill it. Thank you Kim for putting the kits together and suggesting items to go in it.

For the last meet of the year, November 20th, Bev will show us how to make a sleigh for a Christmas scene and a few bits for it such as a Christmas tree. This will be made by using runners made on a 3D printer.

As it will be our Christmas meet we will be bringing a few nibbles, not a lot as we are only small.

Busy hands

Next Meeting: November 20th 2019

Bev will show us how to make a 12th scale sleigh and some items to go on it, for a Christmas scene.

You will need: Uhu type glue, craft knife, wire cutters, scissors, tartan fabric, a small ready made tree or wired evergreen in two sizes 13mm & 6mm wide.

Dates for your diary

November 17th.

Solihull Dolls House Fair
Bentley Heath Community Centre
B93 9BQ

Sewing basket and contents we made at October's delayed meeting.

Woven log basket I made on a rainy day.

First of the Petite Properties 'Memory Lane' set in tiny 148th scale.

Prototype Sleigh for next month's meet.
