

Dear Members,

Well, here we are into February already. I have been busy working on the Christmas present room. I am pleased with it and it is taking shape nicely although it is a bit fiddly at times. It has given me thought for more to look out for as they do not take up much room.

In March it will be time for Miniatura (21-22) This will be the last time it will be held at the NEC as the Autumn show is to be held at the Stoneleigh Abbey show ground near Kenilworth a bit further to go.

I have been looking through all my dolls house magazines for ideas for future things to make. I am amazed at the wonderful items that I have found and wish that I had some of the expertise that had been featured but on saying that I am so pleased with the skills that I have learnt through being a member of this club long may it continue.

Beverley 

February Meeting.

Apologies: Beryl, Helen, Louise and Kandye

Birthday greetings to Jill.

February's club night saw a small group of us getting to grips with our little rooms. We discussed the best way to make up some of the items as the instructions sometimes were a bit scarce in detail. They are all looking good and will make a nice collection to have.

Thanks to Jill for taking the photos when my camera was playing up.

We discussed the idea of a 'High Street of box file shops after seeing the one that Ann brought along last month. Jill has acquired some old box files that would be useful and I have a couple and I am sure we could find some more between the group. We came up with lots of ideas so maybe for March we could start that as a project of things to make.

Next meeting is March 18th. We will be making a club style chair, Ann will supply us with a kit to make up. You will need scissors, glue and trimmings and work box.

Ann and Bev's room together make a lounge - diner!

Next Meeting: March 18th 2020

We will be making a 12th scale club-style chair

Bring scissors, glue, trimmings and workbox.

Dates for your diary 2020

March 21st/22nd.
